

Ahmed Elsherbini

Mobile Application Developer

ahmed.elsherbini.tech@gmail.com | LinkedIn | Portfolio | GitHub | WhatsApp | +447741204235

Manchester, United Kingdom

PROFILE

Mobile application developer with **4+** years of commercial experience delivering iOS and Android products across international teams and markets in North America, Europe and the Middle East. Experienced in Flutter and Dart, with native iOS development using Swift, SwiftUI and UIKit. Delivered 25+ projects across Canada, Qatar, Saudi Arabia, Armenia and Egypt, covering legacy migrations, RESTful APIs, third-party integrations, CI/CD, testing and production releases. **MSc graduate in Managing Innovation and Information Technology** from the University of Salford.

EDUCATION

MSc Managing Innovation and Information Technology

University of Salford
Distinction

09/2025 – 09/2026
Salford, Manchester, UK

B.Eng. Communications & Electronics

Mansoura University

09/2015 – 08/2020
Mansoura, Egypt

WORK EXPERIENCE

Mobile Application Developer

MiNextStep (Full time May 2023 – Jan 2024) (Part-time Apr 2025- Aug 2025) 

05/2023 – 08/2025
Canada

- Led the end-to-end design and development of mobile and web applications from initial requirements through implementation and delivery.
- Owned technical decisions across application architecture, Flutter development, API integration and user experience.
- Worked directly with stakeholders to translate business requirements into technical solutions and documented backend requirements to support development.
- Built reusable application components and scalable features supporting continued product development.

Mobile Application Developer

Techlabs Solutions (Contract) 

02/2025 – 05/2025
Qatar

- Developed Mokaf, a cross-platform Flutter smart parking application with real-time parking maps, QR scanning, Google Maps navigation and REST API integrations.
- Integrated multiple payment services including TAP, Apple Pay and STC Pay, delivering the MVP in under 8 weeks.
- Worked from product requirements through implementation, testing and release, resolving technical challenges across iOS and Android.

Mobile Application Developer

Ar++ tech (Part Time) 

01/2024 – 04/2025
Armenia

- Migrated a legacy Android application to Flutter, improving performance by 20% and reducing maintenance complexity.
- Conducted unit, integration, and widget testing, reducing bug rates by 30%.

Mobile Application Developer

Hwzn Tech 

08/2023 – 08/2025

Saudi Arabia

- Led Flutter application development and implemented CI/CD workflows, reducing development time by 50%.
- Collaborated with the team to resolve critical issues, cutting project delivery time by 20%.

Flutter Developer & Team Leader

CI Company (Full time)

10/2021 – 04/2023

Egypt

- Spearheaded the development of 16+ mobile apps using Flutter and Dart, ensuring high-quality user experiences.
- Led and mentored a team of 3 developers, providing technical guidance and supporting application delivery.

PROJECTS

Tripster

01/2024 – present

- Tripster empowers residents to become guides, offering seamlessly managed orders, and enabling guides to confirm, modify, or cancel directly from their phones.
- Migrated a traditional Android app to Flutter, enhancing performance and user experience.
- Integrated Android components with Flutter, improving app functionality and reducing maintenance time by 25%. **Android** 

Minextstep

06/2023 – present

- Spearheaded the creation of MiNextStep, integrating event management, networking, and university connections; boosted user retention by 50% through invitation-only access and role-specific content.

Az Courses

04/2023 – 07/2023

- Led the redesign, development, and enhancement of Az Courses, a comprehensive educational platform with videos, images, e-books (PDF), and audio recordings; achieved over 15,000 downloads on Android and iOS platforms.

IOS  - **Android** 

SKILLS

Mobile

Flutter, Dart, iOS, Android, Swift, SwiftUI, UIKit, Xcode, Swift Concurrency, Deep Linking, Bluetooth/BLE

Backend & Data

RESTful APIs, Firebase (Auth, Firestore, FCM, Crashlytics, Analytics), Supabase, Core Data, Local Persistence, Local storage

Testing & Debugging

Unit, Widget, Integration & Golden Testing, TDD, Charles Proxy, Flutter DevTools

Architecture & State Management

Clean Architecture, SOLID, Design Patterns, BLoC, Provider, Riverpod, GetX

CI/CD & Release

GitHub Actions, Codemagic, Fastlane, App Store Connect, Google Play Console, TestFlight, Git, GitHub, GitLab, Azure DevOps

Tools & Integrations

Jira, Python Scripting, Google Maps, TAP SDK, Apple Pay, STC Pay, Power BI, Trello, Zoho
